Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C.

121:

- I. Claims 13-19, and 25-31 drawn to polyol premix and sprayable composition, classified in class 252, subclass 182.24.
- II. Claims 20, 21, 32, and 33 drawn to water removal process, classified in class 203, subclass 50.

The inventions are distinct, each from the other because of the following reasons:

Inventions II. and I. are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are directed towards the utilization of different material make-ups and are directed towards the realization of disparate and distinct functions.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Art Unit: 1711

During a telephone conversation with Richard Roberts on 8-31-04 a provisional election was made with traverse to prosecute the invention of I., claims 13-19, and 25-31. Affirmation of this election must be made by applicant in replying to this Office action. Claims 20, 21, 32, and 33 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Claims 20, 21, 32, and 33 are cancelled.

Authorization for this examiner's amendment was given in a telephone interview with Richard Roberts on 9/1/04.

Reasons for Allowance

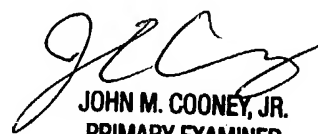

The following is an examiner's statement of reasons for allowance: The prior art does not disclose the premixes of polyol and blowing agent and the sprayable compositions including the azeotrope-like compositions consisting essentially of water and 1,1,1,3,3-pentafluoropropane as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to John Cooney whose telephone number is 571-272-1070. The examiner can normally be reached on M-F from 9 to 6.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, James Seidleck, can be reached on 571-272-1078. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
